@mohfaruk

Web Developer at Roman Post. Strong skills in *HTML/CSS*, *JavaScript* and *React* through building personal projects. Extensive experience using Git version control. Other languages and technologies I have used include *PHP*, *Ruby*, *Node.js*, *MongoDB*, *Bootstrap*, *Tailwind* and *Sass*.

WORK EXPERIENCE

Roman Post – Web Developer

Aug 2021 – present

- Developed a visually appealing, user-friendly website for a local business. As a result, online sales and customer interaction increased significantly.
- Implemented web page designs when writing code in accordance to client specifications.
- Conducted website tests and debugged code where necessary.

Nursing and Midwifery Council – Case Coordinator

Aug 2019 – Apr 2022

- Managed progression and development of over 200 cases so they are concluded within the appropriate timeframe set within key performance indicators.
 - Applied my excellent problem solving skills to complete investigation duties.
 - Worked collaboratively with case team, including lawyers, to complete caseload.
-

TECHNICAL PROJECTS

See Projects: <https://www.mohamadfaruk.com/#projects-section>

Movie Watchlist App

(live version: <https://movie-database-self.vercel.app/>)

- Built a React app that fetches data from a movie database API.
- Dynamically renders information on movies and TV shows, which is displayed on a modal.
- Users are able to add movies/shows to a watchlist which is saved to local storage.
- App is mobile responsive and looks amazing on any device.

Shopping Website

(live version: <https://shopping-website-rose.vercel.app/>)

- Developed an e-commerce website that allows users to add products to a shopping cart.
- Utilises local storage so products are saved whenever the page is refreshed.
- Website was built with HTML, CSS and JavaScript.

Note Keeper App

(live version: <https://note-keeper-app.vercel.app/>)

- Built a React CRUD app which allows users to create notes for display.
 - Users are able to read, update and delete notes.
 - Project uses various React core components such as hooks and states.
-

EDUCATION

Psychology BSc – University of Westminster

2014 – 2017

- Achieved an Upper Second Class Honours (2:1)

Extended National Diploma in IT – City and Islington College

2010 – 2013

- Achieved a Triple Distinction
